SITE PLAN REVIEW PERMIT APPLICATION PROCESS

Step 1 – Application for Site Plan Review is Filed: An applicant shall complete the Egelston Township Site Plan Review Application. An application is deemed complete upon submission of the completed application form and all required documentation to the zoning administrator. Incomplete submissions will receive a list of items needed to make the submittal complete. Once an application is deemed complete, a petitioner will be scheduled on the next available Planning Commission’s agenda. A decision to approve, approve with conditions or deny an application shall be made within sixty (60) days of the date of the receipt of the completed application and all required documentation. Refer to Article V Site Plan Review for further information.

Preliminary Site Plans (see Article V Section 2 of the Egelston Township Zoning Ordinance)

Preliminary proposed site plans may be presented for informal review and comment by the planning commission prior to submission of a formal application for site plan approval. The purpose of this provision is to allow discussion between a developer and the planning commission to better inform the developer of the accessibility of proposed plans prior to incurring extensive engineering and other costs which might be necessary for site plan approval.

Amendments to Previously approved Site Plans (see Article V Section 3 & 4 of the Egelston Township Zoning Ordinance)

Amending a site plan previously approved by the Planning Commission under site plan review is permitted and shall be reviewed by authorized township personnel, subject to the application and review procedures outlined under Article V Section 4.

Site plans previously approved pursuant to special use or PUD procedures are not eligible for consideration as an amendment and must be reviewed according to Article V Section 5.

Special Land Uses and Structures (see Article VI of the Egelston Township Zoning Ordinance)

The zoning administrator shall receive applications for special land uses, review same and submit the application and its contents to the planning commission for the final decision. Said submission shall be made by the zoning administrator within ten days from his receipt of the application.

Planned Unit Development (see Article VII of the Egelston Township Zoning Ordinance)

For the purpose of permitting flexibility in the regulation of land development; and encouraging innovation in land use and variety in design, layout, and type of structures constructed; achieving economy and efficiency in the use of land, natural resources, energy and the provision of public services and utilities; encouraging useful open space; and providing better housing, employment and shopping opportunities particularly suited to the needs of the residents of this township, the Township of Egelston will consider from time to time the establishment of planned unit developed districts which meet the requirements of procedure and contingencies and conditions as set forth in Article VII. The zoning administrator shall preliminarily review any such request and refer same within ten days after the receipt of an application to the planning commission for further review and action.

Step 2 – Staff Review: A review by the Zoning Administrator shall be performed in accordance with Article V Site Plan Review Section 1 Site plans required. If necessary a site plan submittal shall be further reviewed by the Building Department, the Department of Public Safety, County Health Department, Road Commission and Drain Commissioner and the Michigan Department of Transportation. The Zoning Administrator and Township Staff and agencies shall have sixty (60) days from receipt of a complete site plan review application to approve, approve with conditions or deny an application.

Step 3 – Planning Commission Meeting: A meeting shall be scheduled for a review of the application,

plans, and of the recommendation of the Zoning Administrator. The applicant will be notified of the date, time and place of the meeting on the application. Refer to Article V Site Plan Review Section 5 Application procedures for review of site plans before planning commission.

Validity of Approved Site Plan: Approval of a site plan under the provisions of Section 4 shall be valid for a maximum period of two years. If actual physical construction of the building and improvements included on the approved site plan has not commenced in a substantial way during this period, approval shall be null and void. In this event, no construction or site improvement activities may occur [until] approval is renewed by the planning commission.

An application for renewal of approval shall be made in writing to the planning commission through the zoning administrator no less than 20 days prior to the meeting at which the planning commission will consider the application. The planning commission shall review the record of proceedings and site plan subject to renewal and shall either grant a one year extension, or deny the request.

Approval of site plans under the provisions of Section 6 shall be valid for a period of one year during which time construction of the proposed improvements must be substantially commenced. If commencement does not occur during the year following approval, then the applicant shall refile the site plan application and site plan for review by the planning commission. In such cases, the site plan shall be subject to all application and review procedures outlined in Sections 3 and 4.
